

2010 St Louis Deer Classic

3-D Pop-up Archery Tournament & Open Shooting

The popular 3-D Pop-up archery system is returning to the St. Louis Deer Classic for the February 19-21, 2010 show. The archery system is a computerized set of eight pop-up full bodied archery targets. The targets pop-up in a random order giving the archer a few seconds to make a shot before the target disappears. One of the targets is a running target that requires a quick shot that presents a real challenge to the archer.

Since the archer has no idea which target will appear it's a lot like actual hunting.

There will be practice and qualifying sessions at the archery system on Friday evening and Saturday morning and at other times between competitions shooting. Those who qualify will be eligible for shoot-offs in classes for youth, women and men.

There will be substantial cash and equipment prizes in all classes.

Be sure to bring your bow and field points if you want to shoot this fun archery system
